

21 Jan 2014

Greetings.

I have updated the bison harvest log to include recent takes in the Gardiner area (Beattie) as follows:

1/18: 2 bulls (state)
1/19: 1 bull (CSKT)
1/20: 2 bulls (state)

I am unaware of any recent harvest on the West side. However, I have – based on reports – updated the state numbers from earlier this month to reflect all bulls taken instead of one bull, one cow and an “unknown”. Please use these numbers as an in-season indicator.

The state’s second hunt period ends tomorrow, the third (final) begins Thursday and runs through February 15. On the Gardiner side, there is still limited opportunity with 1 or 2 bulls out of the Park, and a medium size group in the Mammoth area. On the West side, a couple dozen remain out of the Park, but are not – and have not been – in a huntable area.

Please share any concerns or updates to these numbers.

Cheers,

Andrea Jones

NOTE THAT THE TABULARIZED HUNT #S PRESENTED WITH THIS 1/21/14 REPORT WERE REMOVED IN LIGHT OF THE 1/23/14 REPORT THAT FOLLOWS.

Update 23 Jan 2014

Here is a clarification [see table on page 2] to the January 21st harvest update. In confirming with the CSKT yesterday, it was determined last week calves had been counted twice in my log – hence the reason for the overall total being lower here. There is no change to state harvest numbers.

Thanks for your continued help with keeping these numbers accurate.

Have a good day.

Andrea Jones
