

1-22-15

Greetings.

On the Gardiner side of the hunt area, bison continue to yo-yo across the Park boundary creating limited opportunities for harvest. Meanwhile, there has been no movement of bison outside Yellowstone on the West Yellowstone side.

As for harvest of bison, numbers have picked up on the Gardiner side as state, CSKT, and Nez Perce hunters have been on the ground intermittently. A total of 70 combined taken is the best current in-season indicator based on a state harvest survey and reports from both CSKT and Nez Perce.

Please see the attached for breakdown.

*\*Please use this information as an in-season indicator only.*
