¹ - Wounded animals shot by NPS.

² - Approximate number of animals being held in the Stephens Creek Facility for release during spring

³ - As winter operations began in early January, 40 bison captured in winter 2016 were still held at Stephens Creek facility: 15 females were transferred to tribes for slaughter on February 8, 1 male was dispatched due to injury on February 7, and 24 males remain in captivity at the facility. These animals are not included in the summary tables.
